SUBJECT INDEX TO VOLUME 105

ABDOMEN, Early surgical treatment of abdominal injuries in traffic victim, 264

Abnormalities and deformities, congenital, Diagnosis and treatment of diastematomyelia, 69; congenital, Agenesis of sacrum, 84; congenital, Surgical aspects of cleft palate, 141; Vascular anomalies of retroinfrahyoid (pretracheal) space and their importance in tracheotomy, 327; congenital, Seven hundred and seven cases of, hypertrophic pyloric stenosis, 348

Abscess, Problem of breast, in puerperium, 224

Accidents, automobile, Preliminary findings of effect of automotive safety design on injury patterns, 257; automobile, Early surgical treatment of abdominal injuries in traffic victim, 264

ACTH, Acute hepatic ischemia in, treated dogs, 39

Adrenalectomy, Treatment of inflammatory carcinoma of breast, 289

Adrenals, Functioning and nonfunctioning, cortical tumors, 21

Albumin, radioactive iodinated serum, Blood volume fluctuations determined by radioisotopes of chromium and, 34

Aldosterone, Pattern and significance of, excretion by postoperative surgical patient, 179

American College of Surgeons—Clinical Congress, Preliminary plans for 43rd, Convention Hall, Atlantic City, New Jersey, October 14 to 18, 1957, 125, 253, 381, 504

Anatomy, Surgical, pertaining to liver resection, 310; Vascular anomalies of retro-infrahyoid (pretracheal) space and their importance in tracheotomy, 327

Anesthesia, effects, Evaluation of respiratory adequacy in immediate postoperative period, 229; Saddle block, in breech delivery, 630; ether, Clinical and experimental experiences, convulsions, 681

Aneurysm, Successful resection of fusiform, of aortic arch with replacement by homograft, 657

Angiography, renal, Percutaneous transfemoral selective, arteriography in pathologic conditions of kidney, 577

Anileridine, Comparison of, morphine, and meperidine in man, 322

Antibiotics, Experimental evaluation of usefulness of, agents in early management of contaminated traumatic soft tissue wounds, 5; prophylaxis: helpful or harmful, ed. 235

Antroneurolysis, Effect of, upon antral function of stomach, 687

Antrum, Effect of antroneurolysis upon antral function of stomach, 687

Anus, Study of long acting muscle relaxant (tubadil) in anorectal surgery, 488

Aorta, Heat sealed dacron taffeta blood vessel replacement, 370; Experiments on occlusion of abdominal, in normotermic dogs, 427; Successful resection of fusiform aneurysm of aortic arch with replacement by homograft, 657

Arrhythmia, Cardiac monitor for detection and differentiation of cardiac standstill, ventricular fibrillation, or peripheral vascular collapse during surgery, 110; Effective cardiac arrest for open-heart surgery, 407; Glucose potentiation of potassium asystole, 615

Arteries, subclavian, Pulmonary, vascular changes induced by experimentally produced, arterial hypertension, 16; roentgenography, Correlative study of peripheral coronary pressures and coronary arteriography following coronary occlusion, 89; Resection and homograft replacement of innominate and carotid, with use of shunt to maintain circulation, 129; Efficiency of new "intima" lining arterial grafts in preventing thrombosis, 177; hepatic, Surgical anatomy pertaining to liver resection, 310; Experiments on occlusion of abdominal aorta in normotermic dogs, 427; roentgenography, Coronary arteriography, in arteriosclerotic disease of heart, 457; renal, Percutaneous transfemoral selective, arteriography in pathologic conditions of kidney, 577; Carcinoma and arterial disease, ed. 635; carotid, innominate, Successful resection of fusiform aneurysm of aortic arch with replacement by homograft, 657; renal, Arterial grafting for, stenosis causing hypertension, 764

Arteriography, See Arteries, roentgenography

Arteriosclerosis, Coronary arteriography in arteriosclerotic disease of heart, 457

Asystole, Glucose potentiation of potassium, 615

BELTS, seat, Preliminary findings of effect of automotive safety design on injury patterns, 257

Bile duct, Surgical anatomy pertaining to liver resection, 310; Hydrodynamics of human common, 355; roentgenography, Intravenous cholangiography: correlation with operative findings in 72 patients, 473; Acute pancreatitis following choledochotomy, 706; Experimental reconstruction of common, with split thickness skin grafts, 747

Biliary tract, drainage, Management of common duct, 238; Simultaneous intravenous cholangiography and urography, 401; enteric fistula, 693; Five year survey of 1,055 patients with extrahepatic diseases, 711

Billroth I gastrectomy, ed. 107

Bladder, New technique for, reconstruction, 645; Hemisection of, for collecting separate urine samples, 766

Blood, volume, fluctuations determined by radioisotopes of chromium and radioactive iodinated serum albumin, 34; coagulation, Long term anticoagulant therapy, 61; circulation, Correlative study of peripheral coronary pressures and coronary arteriography following coronary occlusion, 89; circulation, Resection and homograft replacement of innominate and carotid arteries with use of shunt to maintain, 129; Study of serum proteins with paper electrophoresis—Part I, studies on quantitation with elution and densitometry techniques, 319; Hemodynamic alterations resulting from, vessel grafts and prostheses, ed. 364; Evaluation of human, processed in plastic tranfusion equipment, 365; plasma, citric acid, Massive, replacement—V, failure to observe, intoxication, 529; coagulation, Fibrinolysis following thoracic surgery, 541; Study of serum proteins with paper electrophoresis—Part II, observations on serum protein fractions in patients undergoing hypothermia during intracranial surgery, 610; Fate of, in peritoneal cavity, 621; circulation, Regional hemodynamics of experimental acute arteriovenous fistulas, 733; clot, Reaction of ligated peripheral veins to presence of autogenous, and thrombi, 727; fibrinogen, Possible role of placenta in hypofibrinogenemia, 741

Blood pressure, high, Pulmonary vascular changes induced by experimentally produced pulmonary arterial hypertension, 16; high, Evaluation of portacaval shunts for portal hypertension, 49; Correlative

study of peripheral coronary pressures and coronary arteriography following coronary occlusion, 89; Regional hemodynamics of experimental acute arteriovenous fistulas, 733; high, Arterial grafting for renal artery stenosis causing hypertension, 764
Blood transfusion, Evaluation of human, processed in plastic, equipment, 365; Massive blood replacement —V, Failure to observe citrate intoxication, 529
Blood vessels, Pulmonary vascular changes induced by experimentally produced pulmonary arterial hypertension, 16; Vascular anomalies of retro-infrahyoid (pretracheal) space and their importance in tracheotomy, 327; Hemodynamic alterations resulting from, grafts and prostheses, ed. 364; Heat sealed dacron taffeta, replacement, 370; Regional hemodynamics of experimental acute arteriovenous fistulas, 733
Bone, Effect of 17-ethyl-19-nortestosterone (nilevar) on uptake of radiosulfur in fractured humerus in rat, 1; preservation, Viability of preserved, 449; Nonosteogenic fibroma of, 588; growth, Experimental study of overgrowth after fractures, 717; healing, Method for quantitative in vivo measurement of rate of, beginning shortly after production of lesion, 722
Book Shelf, Friedrich Trendelenburg and Trendelenburg position, 114; Ladies of Lynn—emphasis on one, 769
Brain, blood supply, Resection and homograft replacement of innominate and carotid arteries with use of shunt to maintain circulation, 129; Study of serum proteins with paper electrophoresis—Part II, observations on serum protein fractions in patients undergoing hypothermia during intracranial surgery, 610
Breast, Intraductal papilloma of, 215; Problem of, abscess in puerperium, 224; Treatment of inflammatory carcinoma of, 289; Vaginal cytology in, cancer patients, 421; cancer, sequel, Lymphangiosarcoma secondary to chronic lymphedema, 665
Bronchus, Dimensional interrelationships of major components of human tracheobronchial tree, 210
Burns, Surgical problems in treatment of, 245

CALCULI, Incision for removal of stones impacted in lower ureter, 637
Cancer, Functioning and nonfunctioning adrenal cortical tumors, 21; Nuclear structure in, tissues, 97; Problem of rectal involvement by prostatic, 136; of gingiva, 145; metastasis, Metastatic tumors of small intestines, 159; Endocrinologic effects of certain ovarian tumors, 166; Surgical treatment of, of cervix recurrent after previous radiation therapy, 186; Host resistance to, in relation to prolonged survival following radical surgery, ed. 233; Treatment of inflammatory carcinoma of breast, 289; Vaginal cytology in breast, patients, 421; Small benign and malignant gastric lesion, 435; Squamous cell carcinoma of esophagus, 465; Analysis of 100 cases of recurrent, of uterine cervix, 482; Opportunity for early treatment of lung, ed. 485; Testicular tumors in infants and children, 569; Carcinoma and arterial disease, ed. 635; breast, sequel, Lymphangiosarcoma secondary to chronic lymphedema, 665; Radical panhysterectomy and pelvic node excision for carcinoma of corpus uteri, 675; Unsuspected and subclinical lesions of large intestine at necropsy, 754; cervical, Mongoose and cobra, ed. 759; of colon and rectum, ed. 761
Carbon dioxide, Technique for use of, in presacral retroperitoneal pneumography, 268
Carcinoma, see Cancer
Cardiac arrest, see Arrhythmia
Cartilage, Acceleration of wound healing with,—I, 283
Cells, Nuclear structure in cancer tissues, 97; Etiology and mechanism of nuclear stripping in endocervical and endonasal epithelium, 295; Vaginal cytology in breast cancer patients, 421
Chemotherapy, Antibiotic prophylaxis: helpful or harmful, ed. 235
Cholangiography, see Bile ducts, roentgenography
Choledochotomy, Acute pancreatitis following, 706
Cholografin, Intravenous cholangiography: correlation with operative findings in 72 patients, 473
Chromium, Blood volume fluctuations determined by radioisotopes of, and radioactive iodinated serum albumin, 34
Citric acid, metabolism, Massive blood replacement—V, failure to observe, intoxication, 529
Cleft palate, Surgical aspects of, 141
Colon, Carcinoma of, and rectum, ed. 761
Colostomy, Results of questionnaire survey of, patients, 491
Convulsions, Clinical and experimental experiences with ether, 681
Coronary vessels, Correlative study of peripheral, pressures and, arteriography following, occlusion, 89; Coronary arteriography in arteriosclerotic disease of heart, 457
Correction, Analysis of 105 radical hysterectomies at Free Hospital for Women, 503
Cysts, Experimental production of pseudocysts of pancreas with preliminary observations on internal drainage, 385
Cytology, Vaginal, in breast cancer patients, 421

DACRON, Heat sealed, taffeta vessel replacement, 370
Densitometry, Study of serum proteins with paper electrophoresis—Part I, Studies on quantitation with elution and, techniques, 319
Dextran, Prevention of experimental pancreatic fat necrosis—VI, 103
Diagnosis, and treatment of diastematomyelia, 69; differential, Cardiac monitor for detection and differentiation of cardiac standstill, ventricular fibrillation, or peripheral vascular collapse during surgery, 110; differential, Correlation of pathologic and radiographic findings in tumors and pseudotumors of gallbladder, 599; Unsuspected and subclinical lesions of large intestine found at necropsy, 754
Diaphragm, Experimental use of homologous fascia lata to repair diaphragmatic defects in dogs, 565
Diastematomyelia, Diagnosis and treatment of, 69
Drainage, Management of common duct, 238; Experimental production of pseudocysts of pancreas with preliminary observations on internal, 385; Flexible sump-tube drain, 490
Drugs, analgesic, Comparison of anileridine, morphine, and meperidine in man, 322
Duodenum, Regional enteritis of, 203

EDEMA, Lymphangiosarcoma secondary to chronic lymphedema, 665
Education, medical, What of man, ed. 362; Results of questionnaire survey of colostomy patients, 491
Electrolytes, Pattern and significance of aldosterone excretion by postoperative surgical patient, 179; balance, Implications of abnormal sodium concentration, 273
Electrophoresis, Study of serum proteins with paper, Part I, studies on quantitation with elution and densitometry techniques, 319; Study of serum proteins with paper, Part II, observations on serum protein fractions in patients undergoing hypothermia during intracranial surgery, 610
Elution, Study of serum proteins with paper electrophoresis—Part I, studies on quantitation with, and densitometry techniques, 319
Embolism, Long term anticoagulant therapy, 61; gas, Technique for use of carbon dioxide in presacral retroperitoneal pneumography, 268

Endocrine glands, Endocrinologic effects of certain ovarian tumors, 166
Enteritis, Regional, of duodenum, 203
Epithelium, Etiology and mechanism of nuclear stripping in endocervical and endonasal, 295
Esophagus, Fecal excretion of fat following esophagogastrectomy in animals, 332; Technique of achieving adequate extramucosal myotomy in megaesophagus (achalasia, cardiospasm, dystonia), 339; Squamous cell carcinoma of, 465; Right thoracoabdominal approach to esophageal resection, 641
Ether, Clinical and experimental experiences with, convulsions, 681

FASCIA, LATA, Experimental use of homologous, to repair diaphragmatic defects in dogs, 565
Fat, Prevention of experimental pancreatic, necrosis—VI, dextran, 103; Absorption patterns of isotope labelled dietary constituents in postgastrectomy patients, 153; Fecal excretion of, following esophagogastrectomy in animals, 332
Feces, Fecal excretion of fat following esophagogastrectomy in animals, 332
Fibrinolysis, following thoracic surgery, 541
Fistula, Trial of ileosigmoidostomy in treatment of gastrojejunocolic, 545; Biliary enteric, 693; Regional hemodynamics of experimental acute arteriovenous, 733
Fluid, administration, Surgical problems in treatment of burns, 245; balance, Transfer of water (deuterium oxide) across pleural and peritoneal membranes, 417
Fractures, healing, Effect of 17-ethyl-19-nortestosterone (nilevar) on uptake of radiosulfur in fractured humerus in rat, 1; Experimental study of overgrowth after, 717; Method for quantitative in vivo measurement of rate of bone healing beginning shortly after production of lesion, 722

GALLBLADDER, roentgenography, Intravenous cholangiography: correlation with operative findings in 72 patients, 473; Correlation of pathologic and radiographic findings in tumors and pseudotumors of, 599; Perforation of, ed. 636; Five year survey of 1,055 consecutive patients with extrahepatic biliary tract diseases, 711
Gastrointestinal tract, Effect of antroneurolysis upon antral function of stomach, 687
Gingiva, Cancer of, 145
Glucose, potentiation of potassium asystole, 615
Grafts, blood vessel, Resection and homograft replacement of innominate and carotid arteries with use of shunt to maintain circulation, 129; blood vessel, Efficiency of new "intima" lining arterial, in preventing thrombosis, 177; Surgical problems in treatment of burns, 245; Hemodynamic alterations resulting from blood vessel, and prostheses, ed. 364; Heat sealed dacron taffeta blood vessel replacement, 370; bone, Viability of preserved, 449; Experimental use of homologous fascia lata to repair diaphragmatic defects in dogs, 565; New technique for bladder reconstruction, 645; Successful resection of fusiform aneurysm of aortic arch with replacement by homograft, 657; Experimental reconstruction of common bile duct with split thickness skin, 747; Technique of arterial grafting for renal artery stenosis causing hypertension, 764
Gynecology, operative, Fate of blood in peritoneal cavity, 621

HEART, disease, Pulmonary vascular changes induced by experimentally produced pulmonary arterial hypertension, 16; Correlative study of peripheral coronary pressures and coronary arteriography following coronary occlusion, 89; Cardiac monitor for detection and differentiation of cardiac standstill, ventricular fibrillation, or peripheral vascular collapse during surgery, 110; Elective cardiac arrest for open-, surgery, 407; Coronary arteriography in arteriosclerotic disease of, 457; Glucose potentiation of potassium asystole, 615; Successful resection of fusiform aneurysm of aortic arch with replacement by homograft 657
Heat sealing, dacron taffeta blood vessel replacement, 370
Hemodynamics, alterations resulting from blood vessel grafts and prostheses, ed. 364; Regional, of experimental acute arteriovenous fistulas, 733
Hemorrhoids, Study of long acting muscle relaxant (tubadil) in anorectal surgery, 488
Hernia, diaphragmatic, Experimental use of homologous fascia lata to repair, defects in dogs, 565
Hormone, effects, Vaginal cytology in breast cancer patients, 421
Hospitals, recovery room, Evaluation of respiratory adequacy in immediate postoperative period, 229
Humerus, Effect of 17-ethyl-19-nortestosterone (nilevar) on uptake of radiosulfur in fractured, in rat, 1
Hydrodynamics, of human common duct, 355
Hypertension, see Blood pressure, high
Hypofibrinogenemia, Possible role of placenta in, 741
Hypothermia, Study of serum proteins with paper electrophoresis—Part II, observations on serum protein in patients undergoing, during intracranial surgery, 610

ILEOSIGMOIDOSTOMY, Trial of, in treatment of gastrojejunocolic fistula, 545
Infants and children, Testicular tumors in, 569
Infection, Experimental evaluation of usefulness of antibiotic agents in early management of contaminated traumatic soft tissue wounds, 5; hospital, Problem of breast abscess in puerperium, 224; Antibiotic prophylaxis: helpful or harmful, ed. 235
Instruments and apparatus, Cardiac monitor, for detection and differentiation of cardiac standstill, ventricular fibrillation, or peripheral vascular collapse during surgery, 110; Glenn, Management of common duct drainage, 238; plastic transfusion equipment, Evaluation of human blood processed in, 365; Flexible sump-tube drain, 490
Intestines, Metastatic tumors of small, 159; Trial of ileosigmoidostomy in treatment of gastrojejunocolic fistula, 545; Biliary enteric fistula, 693; Unsuspected and subclinical lesions of large, found at necropsy, 754
Ischemia, Acute hepatic, in ACTH treated dogs, 39
Isotopes, Blood volume fluctuations determined by radioisotopes of chromium and radioactive iodinated serum albumin, 34; Absorption patterns of, labelled dietary constituents in postgastrectomy patients, 153

KIDNEY, Management of renal trauma, 393; Percutaneous transfemoral selective renal arteriography in pathologic conditions of, 577; Hemisection of bladder for collection of separate urine samples, 766

LABOR, presentation, Saddle block anesthesia in breech delivery, 630
Liver, Acute hepatic ischemia in ACTH treated dogs, 39; cirrhosis, Evaluation of portacaval shunts for portal hypertension, 49; Surgical anatomy pertaining to, resection, 310
Lungs, blood supply, Pulmonary vascular changes induced by experimentally produced pulmonary arterial hypertension, 16; Opportunity for early treatment of, cancer, ed. 485
Lymph nodes, Lymphangiosarcoma secondary to chronic lymphedema, 665; Radical panhysterectomy and

pelvic node excision for carcinoma of corpus uteri, 675
Lymphangiosarcoma, secondary to chronic lymphedema, 665

MANOMETRY, Hydrodynamics of human common duct, 355
Meperidine, Comparison of anileridine, morphine, and, in man, 322
Metabolism, postoperative, Pattern and significance of aldosterone excretion by postoperative surgical patient, 179
Morphine, Comparison of anileridine, and meperidine in man, 322
Muscle, Technique of achieving adequate extramucosal myotomy in megaesophagus (achalasia, cardiospasm, dystonia), 339
Myotomy, Heller, Technique of achieving adequate extramucosal, in megaesophagus (achalasia, cardiospasm, dystonia), 339

NILEVAR (17-ethyl-19-nortestosterone), Effect of, on uptake of radiosulfur in fractured humerus in rat, 1
Nipple, Intraductal papilloma of breast, 215
Normothermia, Experiments on occlusion of abdominal aorta in normothermic dogs, 427
Nuclear stripping, Etiology and mechanism of, in endocervical and endonasal epithelium, 295
Nutrition, Fecal excretion of fat following esophagogastrectomy in animals, 332; Nutritional status of patients after partial gastrectomy with gastrojejunostomy for duodenal ulcer, 559

OBSTETRICS, Saddle block anesthesia in breech delivery, 630
Ovary, Endocrinologic effects of certain tumors of, 166

PANCREAS, Prevention of experimental pancreatic fat necrosis—VI, dextran, 103; necrosis, Clinical and morphologic study of 42 cases of fatal acute pancreatitis, 191; Experimental production of pseudocysts of, with preliminary observations on internal drainage, 385; Acute pancreatitis after choledochotomy, 706
Pancreatic ducts, Reflection of temporary, occlusion in serum amylase levels of experimental animal, 287
Pancreatitis, Clinical and morphologic study of 42 cases of fatal acute, 191
Panhysterectomy, Radical, and pelvic node excision for carcinoma of corpus uteri, 675
